

## Screen Shot of Joe Carmel's Atom Demo for StratML

While it is no longer available, besides full-text queries, Joe's demo enabled the selective display of plans based upon browse listings of the values and stakeholders associated with them. Such capabilities are needed to demonstrate the utility of using the standard to those who may otherwise have a hard time understanding why they should care about it. Other elements by which it should be possible to browse and query strategic and performance plans and reports include the names of the goals and objectives they contain as well as the names of the organizations pursuing them.

Department of Transportation ([DOT](#))

**Vision:** Safe, efficient transportation systems

**Mission:** The national objectives of general welfare, economic growth and stability, and the security of the United States require the development of transportation policies and programs that contribute to providing fast, safe, efficient, and convenient transportation at the lowest cost consistent with those and other national objectives, including the efficient use and conservation of the resources of the United States.
