## Internet Society (ISOC)

### Description:

The Internet Society is a global cause-driven organization governed by a diverse Board of Trustees that is dedicated to ensuring that the Internet stays open, transparent and defined by you.

### Stakeholder(s):

#### Internet Engineering Task Force (IETF) :

*The Internet Society was founded in 1992 by a number of people involved with the Internet Engineering Task Force (IETF). From those early days, one of our principal rationales is to provide an organizational home for and financial support for the Internet standards process.*

## Vision

The Internet is for everyone.

## Mission

To support and promote the development of the Internet as a global technical infrastructure, a resource to enrich people's lives, and a force for good in society.

## Values

**Openness:** Our work aligns with our goals for the Internet to be open, globally-connected, secure, and trustworthy.

**Connection**

**Security**

**Trustworthiness**

**Collaboration:** We seek collaboration with all who share these goals.

DEMONSTRATION ONLY

## 1. Communities

*Build and support the communities that make the Internet work*

### 1.1. Education

*Support education in developing countries specifically, and wherever the need exists.*

**Stakeholder(s):**

Developing Countries

### 1.2. Participation & Leadership

*Promote professional development and builds community to foster participation and leadership in areas important to the evolution of the Internet.*

### 1.3. Forums

*Provide forums for discussion of issues that affect Internet evolution, development and use in technical, commercial, societal, and other contexts.*

### 1.4. Self-Governance

*Foster an environment for international cooperation, community, and a culture that enables self-governance to work.*

### 1.5. Cooperation

*Serve as a focal point for cooperative efforts to promote the Internet as a positive tool to benefit all people throughout the world.*

## 2. Infrastructure, Technology & Standards

*Advance the development and application of Internet infrastructure, technologies, and open standards*

### 2.1. Development

*Facilitate open development of standards, protocols, administration, and the technical infrastructure of the Internet.*

### 2.2. Information

*Provide reliable information about the Internet.*

DEMONSTRATION ONLY

### 3. Policy

*Advocate for policy that is consistent with our view of the Internet*

#### 3.1. Initiatives & Outreach

*Provide management and coordination for on-strategy initiatives and outreach efforts in humanitarian, educational, societal, and other contexts.*
