

About Ovitass

We supply our customers and partners with leading edge software and expert professional services to help them create and consume intellectual capital in support of their business goals. We believe that you don't have to accept a one-size-fits-all solution, and you don't have to fund a completely custom project, to get what you need.

We build solutions to fit your needs, using proven software products including Ovitass CMS, Ovitass Workflow Portal, Ovitass Publishing Bridge, the Ovitass Translation Management System (TMS) Bridge, and the Ovitass Portal Framework. These highly configurable tools for component content management, workflow, search & retrieval, and content integration let us build cost-effective solutions targeted at your highest priority business issues.
