

About ACI

The American Cornerstone Institute (ACI) is dedicated to promoting and preserving individual and religious liberty, helping our country's most vulnerable find new hope, and developing methods to decrease the federal government's role in society and to improve efficiency to best serve ALL our nation's citizens. Headed by world-renowned neurosurgeon, presidential candidate, and former Housing and Urban Development Secretary Dr. Ben Carson, ACI will be a voice for reason and civility in a nation that is increasingly devoid of common sense.

The American Cornerstone Institute (ACI) will champion conservative solutions to the real problems our nation faces. With faith, wisdom and compassion, ACI is not afraid to challenge conventional or prevailing groupthink on key public policy questions and will push back against the lies and distortion that are often targeted toward conservative ideas. With independent research, grassroots outreach, and collaboration with state and local entities, faith-based groups, and private organizations, ACI will work to heal the divisiveness that plagues our nation's politics.
