1. Crime & Anarchy

Reduce crime and anarchy on our streets

1.1. Confrontation

Bring woke leaders face-to-face with those directly harmed by their policies.

Woke Corporation and “Woke Justice is NO Justice” Advocacy ~ CCA is pushing back against the “woke” agenda that has infiltrated corporate America and local governments by calling out BLM leaders and the corporations that blindly fund their terror alongside George Soros-backed DAs and Judges that push a soft-on-crime, “Get Out of Jail Free” agenda which sadly most threatens Black and Brown communities. We are confronting these leaders by exposing their recklessness, bringing them face-to-face with those directly harmed.

Conversation with Black America ~ In partnership with the Conservative Partnership Institute (CPI), CCA is leading the efforts to advance a Conversation with Black America in multiple cities to seek the real voices of the community and then championed by legislators and other policy makers in various levels of government. We are actively supporting change we want to see by bridging the divide between the public and elected leaders with solutions that are wanted in the community and, importantly, politically feasible. In doing so, CCA is bringing together local leaders and cultural champions with an agenda of economic empowerment through entrepreneurship, low taxes, and limited government.
