

About GPAI

In collaboration with partners and international organizations, GPAI will bring together leading experts from industry, civil society, governments, and academia to collaborate across four Working Group themes: 1) Responsible AI; 2) Data Governance; 3) The Future of Work; and 4) Innovation & Commercialization. Critically, in the short term, GPAI's experts will also investigate how AI can be leveraged to better respond to and recover from COVID-19.

Realizing the full potential of artificial intelligence (AI) that benefits all citizens requires international collaboration, Canada and France are launching with Australia, Germany, India, Italy, Japan, Mexico, New Zealand, the Republic of Korea, Singapore, Slovenia, the United Kingdom, the United States of America, and the European Union the Global Partnership on Artificial (GPAI) to support and guide the responsible development of artificial intelligence that is grounded in human rights, inclusion, diversity, innovation, and economic growth.

Global Partnership on Artificial Intelligence (GPAI)

Description:

GPAI is an international and multistakeholder initiative to guide the responsible development and use of AI, grounded in human rights, inclusion, diversity, innovation, and economic growth. In order to achieve this goal, the initiative will look to bridge the gap between theory and practice on AI by supporting cutting-edge research and applied activities on AI-related priorities.

Stakeholder(s):

Canada

GPAI Multistakeholder Experts Group Plenary, the first of which will be hosted by Canada in December 2020.

France :

This launch crowns two years of work by the French digital diplomacy and Canadian partners in order to implement the appeal made in the Canada-France Statement on AI of June 2018.

GPAI Centre of Expertise in Paris :

The Centre of Expertise in Paris, piloted by Inria, will support two working groups of experts on 3) future of work and 4) innovation & commercialization.

Australia

GPAI Centre of Expertise in Montréal :

It will work in cooperation with the Centre of Expertise in Montréal, which will support the other working groups.

Germany

India

Italy

Japan

Mexico

New Zealand

Republic of Korea

Singapore

Slovenia

United Kingdom

United States of America

European Union

OECD Secretariat :

GPAI will be supported by a Secretariat, to be hosted by the OECD in Paris, as well as by two Centres of Expertise – one each in Montréal and Paris. The relationship with the OECD will bring strong synergies between GPAI's scientific and technical work and the international AI policy leadership provided by the OECD, strengthening the evidence base for policy aimed at responsible AI. The Centres will provide administrative and research support for the practical projects undertaken or assessed by Working Group experts from various sectors and disciplines. The Centres will also plan the annual

Vision

AI benefits all citizens

Mission

To guide the responsible development and use of AI

Values

Collaboration

Responsible Development

Artificial Intelligence

Human Rights

Inclusion

Diversity

Innovation

Economic Growth

DEMONSTRATION ONLY

1. Collaboration

Bring together experts from to collaborate across four themes.

Stakeholder(s)

industry, civil society, governments, and academia

1.1. Responsibility

Consider responsible AI.

1.2. Data

Address data governance.

1.3. Work

Consider the future of work.

1.4. Innovation & Commercialization

Consider AI related innovation & commercialization.

DEMONSTRATION ONLY

2. COVID-19

Investigate how AI can be leveraged to better respond to and recover from COVID-19.
